

Demonic Deli

Having trouble reading the rules?
Need some extra clarification?

This easy to follow video will
get you playing the game in
minutes!

Setup

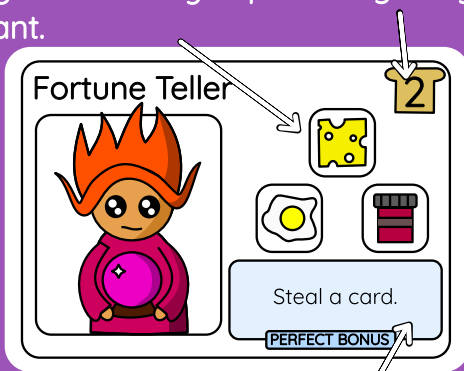

- Shuffle the ingredient and customer decks separately.
- Set the Demon card aside.
- Deal 4 ingredients to each player.
- Set out 5 customers for everyone to see.
- Make sure to leave space in front of each player for their sandwiches.

About Customers

The types of
ingredients they
want.

The number of
points it gives you.

This is the perfect bonus. When you
feed a customer without any extra
ingredients do what it says.

Winning the Game

The first player to get to 10 points by
feeding customers with sandwiches wins.

About Ingredients

Ingredients have 5 different types:

Veggie

Protein

Cheese

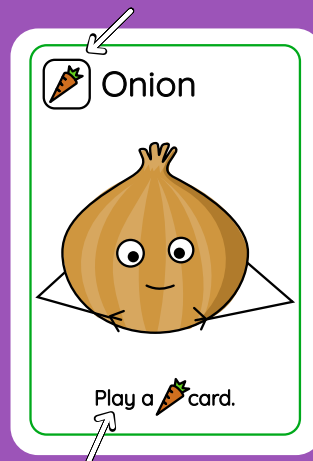

Condiment

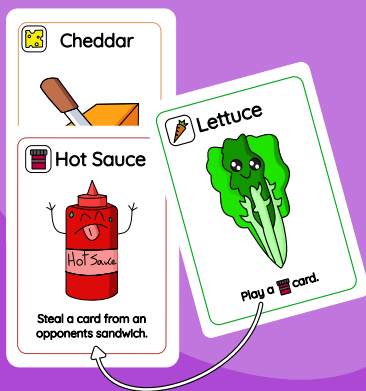

Wild

The ingredient type of the card

Follow these instructions when you play
the card.

Sandwiches

When you play an ingredient you put it onto one of your sandwiches or start a new sandwich (you can have up to 3).

Sandwiches are represented by columns of cards. Each sandwich can only have 5 ingredients max.

To play a 6th ingredient, discard a card already on the sandwich.

The Turn

To start your turn, choose to either

Play an Ingredient

Take an ingredient from your hand, and place it onto a sandwich in front of you.

Then you MAY choose to follow it's instructions.

To steal a card means take it from an opponents sandwich onto your own. (Do NOT follow the instructions of the card you stole)

Wild cards can be any ingredient type at any time.

OR

Feed a Customer

Discard a sandwich with the ingredients a customer wants, then take the customer.

(You can use a sandwich with more ingredients than they want, but not less)

To end your turn discard as many cards as you want, then draw until you have 4 cards.

The Deli Demon

When a card tells you to possess a customer with a demon, pick up the Demon from wherever it is and place it on top of a customer of your choice.

The customer can't be fed until the demon is moved.
